

If It's Neuralgia

and those sharp, shooting, agonizing pains drive you almost crazy, take Dr. Miles' Anti-Pain Pills, and get relief. They drive out the pain by their soothing effect upon the nerves. When taken as directed they are harmless, and leave no bad after-effects. That's the reason they are so popular with all who use them. Your druggist can tell you what others in your locality think of them.

"I do positively think that Dr. Miles' Anti-Pain Pills are the best medicine ever put upon the market. I find them so soothing and soothing, and without any bad after-effects. I have suffered with neuralgia so that my system would just ache and quiver, and I cannot take opiates, but I can take these tablets, and they always relieve me. No one that suffers with neuralgia need fear to take them as I know they will not form a habit, for if there was any opiate in them I could not take them. Just one in the morning when I feel bad, and I can do my work all day."

MRS. W. H. BURKETT, Macon, Ga.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

MICHIGAN STATE FAIR

Will Be Held in Detroit Aug. 29 to Sept. 6
\$10,000 ADDED TO PREMIUMS

Determined Effort to Make It the Best Ever Held in Michigan and in Many Respects Superior to the Great Toronto Exposition.

Visitors to the State Fair, held under the auspices of the Michigan State Agricultural Society at Detroit, August 29 to September 6, will witness an industrial exhibition that will surpass in many respects the famous Toronto exposition. As a matter of fact both in attendance, the value of the exhibits, and the premiums offered, the State Fair has grown into an annual exposition that has attained no little fame far beyond the boundaries of the state.

One of the most important factors that has entered into the upbuilding of the fair is the perfect harmony existing between the officers of the Agricultural Society. President Fred Postal, former senator, A. J. Doherty, Secretary I. H. Butterfield, Treasurer John McKay, and Business Manager Chas. A. Floyd, have worked early and late for the success of the 1907 exhibition, and the wonderful improvements made in the buildings, grounds, transportation facilities, premium lists, and extra attractions are mute testimonials to their efforts. The experience Mr. Doherty gained as chairman of the finance committee last year has proved invaluable to him as general superintendent. He knows the fair's shortcomings and has evolved plans that will overcome them as rapidly as possible.

It has been determined to add \$10,000 of the appropriation made by the state legislature to aid the fair to the premium lists. This will make the awards given exhibitors by far the most liberal in the history of the state. In addition new classes have been added in the cattle, horse, sheep, and swine departments. Secretary Butterfield will begin the work of mailing the premium lists to farmers, stock growers, and former exhibitors about June 1.

An improvement this year that will appeal to every exhibitor is the adding of three sidetracks to the railroad facilities within the grounds. Negotiations are now on with the Grand Trunk railroad for the installation of the new sidings, and the improvement will almost triple the capacity of the fair yards.

The fair of 1906 was handicapped to a great extent through several buildings being completed only a day or two before the gates were opened. In many instances unfinished sidewalks, walks, and rough interiors greeted the visitor, but this has all been changed and the grounds undergone a complete transformation. Under the direction of L. R. Taft, of the Michigan Agricultural college, a landscape gardener has laid out new walks, and arranged to turn the north end of the grounds into a rest spot. Heretofore it has been used by the horsemen and contained tumble down shacks. The beautifying of this spot will remove the only unsightly feature on the many acres devoted to State Fair purposes. By mid-summer a superb collection of shrubs will be at their best while lawns that were seeded a year ago will be covered with a carpet of heavy grass.

"Something doing every minute," has been the motto of Business Manager Floyd in arranging the attractions to be seen from the grand stand at night and between races during the afternoon program. Mr. Floyd has contracted for almost every form of entertainment known to the amusement world, and also for several special features that have never been seen outside of New York and Chicago. His program as arranged includes: High diving, deep sea diving, gymnastic work on apparatus, tumbling, tight rope walking, trained animals, exciting cowboy races, and wild west scenes. He is at present endeavoring to arrange for a genuine western village to be shown on the grounds. If he is successful in completing arrangements they Indian paposes can be seen as they stare unblinkingly from the narrow framework strapped to their mother's back. War dances will be given in full Indian regalia every afternoon and evening, and among the relics of the old western days shown will be a stage coach that has been ridden with bullets time and again while crossing the plains. A special feature will be made of the Indian museum, lecturers being present to explain the history and significance of every article shown.

Every visitor will be interested in the ostrich farm. Between 50 and 60 birds will be shown, in addition to over a score of "chicks" that are far larger than a good-sized hen. The details of ostrich farming will be gone into thoroughly while a collection of magnificent feathers will be on exhibition. Several of the mammoth birds have been trained to draw sulkes and will be seen upon the race track.

The fair management has determined that no criticism can be made this year of the various entertainments granted the privileges of the fair grounds. Every show must be absolutely moral in tone, and fulfill every representation of what is to be seen inside the tents.

Dairymen who visit the state fair will have an opportunity of seeing a milking machine in actual operation. Gov. Warner is the owner of the only milking machine in the state in addition to the one that will be shown at the fair. They are mechanical contrivances that show the constant effort inventors are making to reduce the cost of production in the dairy and butter business.

The educational department of the fair is under the personal supervision of George B. Horton, of Fruit Ridge, president of the Michigan State Grange. Mr. Horton has placed a large share of the detail work in the hands of Thomas M. Sattler, superintendent of the Jackson county schools. The work has become one of Mr. Sattler's hobbies, and in a letter to President Postal he recently declared,

Liberal prizes will be given for the best examples of graded school work. Specimens will be shown embracing what is accomplished throughout the state by classes in manual training, forestry, domestic science, drawing, clay modeling and painting. Mrs. Belle F. Clark, of Denton, will have charge of the needlework department, and has already asked that she be allowed twice the amount of space given to the needlework exhibition last year.

C. A. Tyler, of Nottawa, secretary-treasurer of the American Hampshire Sheep Association, and also secretary of the State Livestock Sanitary Commission, will again superintend the exhibit of cattle. In furtherance of the determination of the state fair officials to increase the premium paid to Michigan bred cattle from time to time, the "home bred" classes will be treated with unusual liberality this year. A class has been added for Ayrshire cattle, and a special prize will be offered for dairy short horns. The American Short Horn Breeders' Association prize of \$200 will be increased to \$400 by the society. This amount will be given in addition to the regular premiums offered for American short horns.

The special dairy prize of \$100 given last year for economical dairy production will be continued this year. This prize is open to all breeds. Tests will be made for three days by the State Dairy and Food Department based on cost per unit of the total product.

The horse department has been greatly improved. The classifications have been enlarged covering standard bred, coach and saddle horses. A new class has been added for the American coach horse while the Clydesdale and Englishshire horses have been placed in separate classes. A champion cup will be offered for the best stallion shown with a colt of his get. This department is in charge of L. C. Holden, of Sault Ste. Marie. Mr. Holden is the owner of a large stock farm situated in Chippewa county, and is known to every horse breeder in Michigan.

The largest premiums in the history of the fair will be offered this year for Michigan bred sheep. The classification and the number of breeds represented will be larger than those shown at any fair in the United States. W. E. Boyden, of Bay City, who will superintend this department, is an experienced sheep breeder and is known personally to every stockman in the lower peninsula.

Rep. W. J. Galbraith, of Calumet, has been gradually adding to the mineral collection that will be shown at the fair this year. Not only will every metal that is taken from the ground in Michigan be displayed, both in its natural and manufactured state, but the method of mining, the machinery used, and the history of the mining discoveries will also be gone into. The mineral collection will be featured in a way that will be of the greatest value as an educational factor.

In the poultry department, Superintendent Daniel Thomas, of Pontiac, has prepared good lists and liberal premiums. A. H. Griffith, of Detroit, director of the Detroit Museum of Art, who will superintend the art exhibit, has arranged for an elaborate display of costly paintings. In the fruit and flower department many premiums have been added. Rep. L. W. Snell, of Highland Park, has stated that the dairy exhibit, of which he will have charge, will be one of the most complete ever seen in Michigan.

Some idea of the growing fame of the State Fair even beyond the confines of the state can be gained by the fact that Secretary Butterfield has received over 50 applications from implement dealers all over the country for space to display their wares. Hardware dealers and manufacturers throughout the state have awakened to the opportunity offered by the State Fair for the exhibition of their wares, and it is thought that the booths in the industrial building this year will be both numerous and costly.

While the fair will be closed on Sundays this year, it will be open every night. The gates will swing for visitors the first thing every morning and will not be locked until the last visitor has wended his way homeward.

The executive committee of the Michigan Agricultural Society announced that all entries must be made in the various classes before the following dates:
All live stock entries close on August 22.
All speed entries close on August 22.
Entries in fruits and flowers close August 30.
In all other divisions on August 23.

Special prizes have been offered during the past five years for exhibits of grains, fruits and vegetables from the upper peninsula. When first offered they met with little response but the exhibit has grown to be one of the largest and most important seen at the fair. The Upper Peninsula Agricultural college will be represented this year with a complete display of agricultural products. The exhibit will be in charge of Prof. Leo M. Gelsmar, Chatham, Mich., who is the secretary.

The Best Laxative for Children:
Parents should see to it that their children have natural, easy movement of the bowels each day. Do not dose the child with salts or griping pills, for they are too powerful in effect, and likely to injure little insides to pieces, leaving the bowels weakened and less able to act naturally than before. Give Iron-Ex Tablets. These are gentle, healthy, and stimulate all the little organs to healthy activity. Give one or two tablets a day, after meals, never griping or nauseating. 10c, 25c and 50c.
